July pm

Whole School Trip to Let Loose Adventure
Park – Wednesday 10th July

Year 6 Crucial Crew & Treat Day –
Thursday 11th July

Leavers Service @Wathill Church – 9am
Thursday 18th July

Federation

As you are aware, we have organised a surprise event for the children of both schools in the final week. On this day, Thursday 18th July, children will require their PE kits. The children from Warthill will be taken over by bus at lunchtime and brought back at the end of the day. However, there will be a short 'showing' event around 2:45pm which all parents are welcome to attend. Should you wish to attend, there is no need to let us know, just come along. You may take your children with you when you leave instead of them going back to school on the bus.

Science Fair

The plans for our Science Fair at Sand Hutton on Monday 8th July (1:30- 2:30) are well underway and it is looking to be a great afternoon. We've had some very kind parents offer their time and expertise to running stalls, and have the support of several local companies. Should you wish to have a stall, please contact Mrs Smith or speak to a member of staff. We look forward to seeing you there!

Sleepover

What a wonderful evening/night we spent with 24 children at Sand Hutton. For a second year running, the behaviour was exemplary, and all the adults involved would like to thank each and every one of the group for making it such a pleasant experience. This does of course mean that we may have to repeat this next year!

We had the weather on our side this time and were able to use the outdoors to play games and den build. There were some truly amazing dens with some personal touches. The film and popcorn was interrupted only for pizza and then Mrs Naylor made full use of her story telling skills as everyone settled down to sleep. Some had nodded before the tale even ended (only a reflection on the busy evening and not the story choice!) The night was a peaceful one and we had to wake some of them for breakfast. Before going home, the children made all manner of outfits for their teddies. Well done everyone! Same place next year!

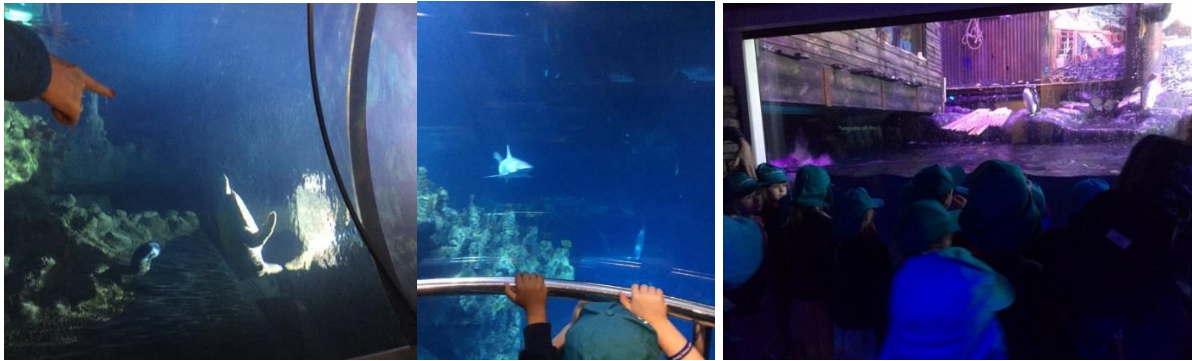

Sand Hutton

Sand Hutton School Council invite you to participate in the Great Sand Hutton Bake Off Competition. Each child is invited to decorate 4 buns (either homemade or bought) in the most appealing way possible. The decorated buns need to be brought into school on Wednesday 17th July in a labelled container, where they will be judged by our resident Mary Berry, Mrs Hall. There will be prizes for the best decorated cakes. The cakes will then be sold for 20p each, with all money raised going to our chosen UK charity, Barnardos.

Class 1

Class 1 visited The Deep in Hull yesterday, and had an amazing time looking at all the different sea creatures including fish, turtles and sharks.

Stay and Play Sessions will be running every Wednesday after half term 1.30 – 3.00pm, for those children starting with us in September, and any other toddlers in the area who would like to attend. They are a great way to introduce your children to the teaching staff and familiarize them with the school environment. No need to book, just come along if you can.

Class 3

The children are hard at work preparing their play, for the final performance at York Theatre Royal. The details are all under wraps for now but I CAN say that I think that all who come to watch will be impressed!

Warthill

A huge thank you to everyone involved in the summer fair at Warthill. The Friends team managed to book the only four hour dry spell in the entire week. The atmosphere was relaxed and fun, with pizzas and barbecue food proving very popular. The Bake Off competition was outstanding and what a fabulous idea! It raised funds of £1034.92 but more importantly, it created an opportunity for the school and village communities to mix. It was great to see a number of Sand Hutton families there too. A massive success all round. Thank you all.

We will be running Toddler TOTS sessions after the half term, for toddlers who are in the area to they come for a playgroup to experience the school.

They will run on Monday afternoons at the school from 1.30 - 3.10pm on Monday 3rd, 17th, 24th June and the 1st 8th and 15th July.

If anyone wants more information about this then please just email or call the school.

Infants

Despite the rain the children in the infant class have had a lovely two weeks exploring fairy tales and making up their own short plays. They have continued their work looking at the sea by making clay model sea creatures, printing, collage and painting. Additionally we have looked at the features of our local seaside resorts, designing and writing our own postcards.

The children had a fantastic trip out, "a play in a day" to the Theatre Royal. They experienced a drama workshop, bringing out their brilliant acting skills and exploring language. The children then watched a performance of "Yellow is the colour of Sunshine". Thank you to the Friends of Warthill for such an enjoyable trip!

Junior Class

Green Apples

Year 6 pupils visited St John University last Thursday to find out more about the prospects of university. They found out about the different types of courses you can study as well as the sorts of jobs that are available to you. The children had a tour of the campus and explored what day to day life is like as a student.

Malton Experience Day

The year 5 pupils has a day out at Malton High School. They had go at various lessons such as science, drama, and design technology. The children were involved in putting on a mini production, some taking the dance and actor roles, others getting involved with the stage production and scenery creation. The children had a great time and represented Warthill fantastically.

English

In English we have been writing persuasive pieces; encouraging people to think about the effect of deforestation. The children have researched reasons for and against, and had a class debate about the consequences. Children have also written about their opinions, using their evidence to back up their point.

Maths

We have been practising telling the time. The Children have been asked to practise at home, so please encourage them to tell you the time. Children who feel confident with this skill have been solving problems involving adding or subtracting time intervals. We will begin to look at the 24 hr clock and interpreting timetables.

Art

The children have produced some beautiful pieces based on the work of Henri Rousseau. Here are a few examples.
