

Warthill Juniors

Shang Dynasty

In junior class we have been carrying out our own research, comparing The Shang Dynasty of Bronze Age China to Bronze Age Britain. We used google Earth to explore the Yellow River of China and look at geographical features of the region that was ruled by the Shang Dynasty.

Exploring Sound with Mr Kirk

Mr Kirk came in to talk to us about how sound is created. We looked at the role of a road maintenance worker and discovered that they need to protect themselves against loud noises made by their equipment. We made our own ear defenders and tested them.

Yoyo – What is belief?

We were visited by a group from Yoyo who kindly answered our questions about belief and values. Some of our questions included:

How would you describe your belief?

Has your belief changed over time?

Does your family have similar beliefs?

Does your belief change the way you act?

Do you think it is important to have a belief?

What makes your belief important to you?

Do you see belief and religion as the same thing?

Science – Exploring Light

As part of our science topic on light we learnt that light travels in straight lines. We experimented with reflecting light using mirrors and managed to send the beam from one end of our classroom, through the hole in the card, to the other side by reflecting it from mirror to mirror. We also made dark dens and explored that darkness is the absence of light.
