

Class 1 - Friday 8<sup>th</sup> November 2019

We have spent the week exploring the new layout of our classroom and tackling the exciting challenges. We have been applying our maths skills and fine motor control by matching the number of cheerios to the numerals. Also we've been creating imaginary homes using our indoor construction panels. We continue to explore the outdoors, seasonal changes and the joys of leaf pictures. We are particularly proud of our leaf lion!

We are looking forward to starting our new topic 'The Toybox' and entering the Christmas period!
